

Cargo Trailers

3500C

2600C

1500C

The Cargo range is designed to make the most of modern handling equipment with a low, clear platform to make loading by hand or with a fork lift truck simple and quick from 3 clear sides.

The under-chassis wheel design maximises the useable load width for versatility, we provide the option of removable sides, tailgate and loading ramps.

Full width galvanised beam axles and independent suspension ensure easy towing and a smooth ride for your valuable cargo.

Each of the trailers in the Richardson Cargo range is fitted with hydraulic couplings and auto reversing brakes, to meet EEC Directive number 71/320.

For durability, our steelwork is fully welded and hot dip galvanised. Capacity and loading are made easy with 16" galvanised steel sides on all models. A drop tailgate and full road lighting is standard.

Full width galvanised beam axles and independent suspension ensure easy towing and a smooth ride for every load.

Cargo Trailers

Cargo Trailers

- Low maintenance cargo trailer suitable for a wide range of uses including carrying Plant and machinery, compact tractors
- Low platform height
- Fully welded, hot dipped galvanized construction for long life
- Robust and sturdy
- Easy to tow affording a smooth ride
